

July 6, 2001 Philip Morris Update

→ finds of no checks reasons

We have screened 154 people so far, 24 of those were DQ'd at screening for PFTs, wgt, I/E, etc. Of the 130 total potential participants, 76 people have passed their clinical labs and 42 have rechecks. The rest are fails.

We have 2 screenings remaining: 7/10, 7/16. There are 265 people scheduled to screen on those dates as of today. Recruiting is still on-going.

The clinical labs were collected at screening. The biomarkers are collected at physical. We have the first physical today.

The dates of physicals:

06 Jul
09 Jul
16 Jul
19 Jul

The carboxyhemoglobin sample collected will be shipped to Covance on the same day.

First shipment of cigarettes and accessories was received today.
